

KOCKÒN 105

fuel anti-theft device

YOUR FUEL IS PRECIOUS!

ULTIMATE PROTECTION

KOCKÒN has NO holes or slots, IMPOSSIBLE to insert flexible pipes or tubes to syphon the content of the tank. PROGRESSIVE FLOAT LOCKING SYSTEM prevents any access to the fuel located in the upper part of the tank without interfering with the filling operations.

QUICK REFUELLING

Due to the specially designed internal devices the fuel flows free without turbulence, splash back and overflow.

EASY FITTING

KOCKÒN is fitted in seconds thanks to the double bayonet system, no mechanical modifications are required, no screws, no rivets, no glue or sealants. All that is needed is a standard oil filter wrench.

* According to the statistics figure from a survey of 70 fleets, after six months of use of KOCKÒN (approx. 3,200 vehicles).

3,7%

OF FUEL IS SUBJECT TO MISAPPROPRIATION*
